INDEPENDENT AUDITOR'S REPORT

Board of Directors and Shareholders
CalWest Bancorp and Subsidiary
Irvine, California

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of CalWest Bancorp and Subsidiary, which comprise the consolidated balance sheets as of December 31, 2014 and 2013, and the related consolidated statements of operations, comprehensive income (loss), changes in shareholders' equity, and cash flows for the years then ended, and the related notes to consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(Continued)

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of CalWest Bancorp and Subsidiary as of December 31, 2014 and 2013, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 14 to the consolidated financial statements, the Company's wholly owned subsidiary, South County Bank (the "Bank"), is operating under a Consent Order, which has resulted in increased regulatory oversight of the Bank by the Office of the Comptroller of the Currency (the "OCC"). The Bank's ability to meet the requirements of the Consent Order is dependent upon a number of factors, including, among other things, its ability to return to profitability and to raise additional capital. Our opinion is not modified with respect to this matter.

Other Matters

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Supplementary Information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, and cash flows of the individual companies, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation: The financial statements include the accounts of CalWest Bancorp and its subsidiary, South County Bank (the "Bank"), collectively referred to herein as the "Company." All significant intercompany transactions have been eliminated. CalWest Bancorp has no significant business activity other than its investment in South County Bank. Accordingly, no separate financial information on the Company is provided, other than reflected in the consolidating schedules included as Supplementary Information.

Nature of Operations: The Bank has been organized as a single operating segment with three additional divisions, CalWest Bank, Inland Valley Bank, and Surf City Bank. The Bank operates a full service branch in Irvine under the CalWest Bank division, a full service branch in Redlands, California under the Inland Valley Bank division, and a full service branch in Huntington Beach, California under the Surf City Bank division. In addition, the Bank operates a full service branch in Rancho Santa Margarita, California under the name South County Bank N.A.

The Bank's primary source of revenue is providing loans to customers, who are predominately small- and middle-market businesses and individuals.

Subsequent Events: The Company has evaluated subsequent events for recognition and disclosure through March 25, 2015, which is the date the financial statements were available to be issued.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The allowance for loans losses, deferred tax assets, and fair values of securities and other financial instruments are particularly subject to change.

Cash and Cash Equivalents: For purposes of reporting cash flows, cash and cash equivalents include cash, due from banks, and federal funds sold. Generally, federal funds are sold for one-day periods.

Cash and Due from Banks: Banking regulations require that banks maintain a percentage of their deposits as reserves in cash or on deposit with the Federal Reserve Bank. The Company complied with the reserve requirements as of December 31, 2014 and 2013. The Company maintains amounts at other financial institutions, which exceed federally insured limits. The Company has not experienced any losses in such accounts.

Interest-Bearing Deposits in Other Banks: Interest-bearing deposits in other banks mature within one year and are carried at cost.

Securities: Debt securities for which the Company has the positive intent and ability to hold to maturity are reported at cost, adjusted for premiums and discounts that are recognized in interest income using the interest method over the period to maturity. Investments not classified as held to maturity securities are classified as available for sale securities and recorded at fair value. Unrealized gains or losses on available for sale securities are excluded from net income and reported as an amount net of taxes as a separate component of other comprehensive income included in shareholders' equity. Premiums or discounts on held to maturity and available for sale securities are amortized or accreted into income using the interest method. Realized gains or losses on sales of available for sale securities are recorded using the specific identification method.

(Continued)

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Management evaluates securities for other-than-temporary impairment ("OTTI") on at least a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. For securities in an unrealized loss position, management considers the extent and duration of the unrealized loss, and the financial condition and near-term prospects of the issuer. Management also assesses whether it intends to sell, or it is more likely than not that it will be required to sell, a security in an unrealized loss position before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the entire difference between amortized cost and fair value is recognized as impairment through earnings. For debt securities that do not meet the aforementioned criteria, the amount of impairment is split into two components as follows: OTTI related to credit loss, which must be recognized in the income statement and OTTI related to other factors, which is recognized in other comprehensive income (loss). The credit loss is defined as the difference between the present value of the cash flows expected to be collected and the amortized cost basis. For equity securities, the entire amount of impairment is recognized through earnings.

Loans Held for Sale and Servicing Assets: Small Business Administration ("SBA") loans originated or purchased and intended for sale are carried at the lower of aggregate cost or fair value. Net unrealized losses, if any, are recorded as a valuation allowance and charged to earnings. Gains on sales of loans are recognized at the time of sale and include any servicing asset recognized. A valuation allowance is recorded against servicing assets when fair value is below the carrying amount. As of December 31, 2014 and 2013, the amount of the servicing asset recorded was \$28,169 and \$72,108, respectively.

Loans: Loans receivable that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at their outstanding unpaid principal balances reduced by any charge-offs, the allowance for loan losses and net of any deferred fees or costs on originated loans, or unamortized premiums or discounts on purchased loans.

Loan origination fees and certain direct origination costs are capitalized and recognized as an adjustment of the yield of the related loan.

Loans on which the accrual of interest has been discontinued are designated as nonaccrual loans. The accrual of interest on loans is discontinued when principal or interest is past due 90 days based on the contractual terms of the loan or when, in the opinion of management, there is reasonable doubt as to collectability. When loans are placed on nonaccrual status, all interest previously accrued but not collected is reversed against current period interest income. Income on nonaccrual loans is subsequently recognized only to the extent that cash is received and the loan's principal balance is deemed collectible. Interest accruals are resumed on such loans only when they are brought current with respect to interest and principal and when, in the judgment of management, the loans are estimated to be fully collectible as to all principal and interest.

Credit Risk and Concentrations: A significant portion of the Company's real estate loans are secured by real properties located in Southern California. Declines in the California economy and in real estate values could have a significant effect on the collectability of the Company's loans and on the level of the required allowance for loan losses.

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Allowance for Loan Losses: The allowance for loan losses is a valuation allowance for probable incurred credit losses. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. Management estimates the allowance balance required using past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions, and other factors. Allocations of the allowance may be made for specific loans, but the entire allowance is available for any loan that, in management's judgment, should be charged off. Amounts are charged-off when available information confirms that specific loans or portions thereof, are uncollectible. This methodology for determining charge-offs is consistently applied to each loan segment.

The allowance consists of specific and general reserves. Specific reserves relate to loans that are individually classified as impaired. A loan is impaired when, based on current information and events, it is probable that the Bank will be unable to collect all amounts due according to the contractual terms of the loan agreement. Factors considered in determining impairment include payment status, collateral value and the probability of collecting all amounts when due. Measurement of impairment is based on the expected future cash flows of an impaired loan, which are to be discounted at the loan's effective interest rate, or measured by reference to an observable market value, if one exists, or the fair value of the collateral for a collateral-dependent loan. The Bank selects the measurement method on a loan-by-loan basis except that collateral-dependent loans for which foreclosure is probable are measured at the fair value of the collateral.

The Company recognizes interest income on impaired loans based on its existing methods of recognizing interest income on nonaccrual loans. Loans for which the terms have been modified resulting in a concession, and for which the borrower is experiencing financial difficulties, are considered troubled debt restructurings and classified as impaired with measurement of impairment based on expected future cash flows discounted using the loan's effective rate immediately prior to the restructuring.

If a loan is impaired, a portion of the allowance is allocated so that the loan is reported, net, at the present value of estimated future cash flows using the loan's existing rate or at the fair value of collateral if repayment is expected solely from the collateral. Smaller balance, homogeneous loans are collectively evaluated for impairment.

General reserves cover non-impaired loans and are based on historical loss rates over the last twelve quarters for each portfolio segment, adjusted for the effects of qualitative or environmental factors that are likely to cause estimated credit losses as of the evaluation date to differ from the portfolio segment's historical loss experience. Qualitative factors include consideration of the following: changes in lending policies and procedures; changes in economic conditions, changes in the nature and volume of the portfolio; changes in the experience, ability and depth of lending management and other relevant staff; changes in the volume and severity of past due, nonaccrual and other adversely graded loans; changes in the loan review system; changes in the value of the underlying collateral for collateral-dependent loans; concentrations of credit and the effect of other external factors such as competition and legal and regulatory requirements.

Portfolio segments identified by the Bank include real estate, commercial and consumer loans. Relevant risk characteristics for these portfolio segments generally include debt service coverage, loan-to-value ratios and financial performance on non-consumer loans and credit scores, debt-to income, collateral type and loan-to-value ratios for consumer loans.

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Premises and Equipment: Premises and equipment are carried at cost less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives, which ranges from three to ten years for furniture and fixtures. Leasehold improvements are amortized using the straight-line method over the estimated useful lives of the improvements or the remaining lease term, whichever is shorter. Expenditures for betterments or major repairs are capitalized and those for ordinary repairs and maintenance are charged to operations as incurred.

Federal Reserve Bank ("FRB") and Federal Home Loan Bank ("FHLB") Stock: The Company is a member of the FRB and FHLB systems. Members are required to own a certain amount of stock based on the level of borrowings and other factors, and may invest in additional amounts. FRB and FHLB stock is carried at cost, classified as a restricted security, and periodically evaluated for impairment based on the ultimate recovery of par value. Both cash and stock dividends are reported as income.

Other Real Estate Owned: Assets acquired through or instead of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. If fair value declines subsequent to foreclosure, a valuation allowance is recorded through expense. Operating costs after acquisition are expensed.

Company Owned Life Insurance: The Company has purchased life insurance policies on certain key executives. Company owned life insurance is recorded at the amount that can be realized under the insurance contract at the balance sheet date, which is the cash surrender value adjusted for other charges or other amounts due that are probable at settlement.

Income Taxes: Income tax expense is the total of the current year income tax due or refundable and the change in deferred tax assets and liabilities. Deferred tax assets and liabilities are the expected future tax amounts for the temporary differences between carrying amounts and tax bases of assets and liabilities, computed using enacted tax rates. A valuation allowance, if needed, reduces deferred tax assets to the amount expected to be realized.

A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded. Interest and penalties related to uncertain tax positions are recorded as part of income tax expense.

Comprehensive Income (Loss): Comprehensive income (loss) consists of net income and other comprehensive income (loss). Other comprehensive income (loss) includes unrealized gains and losses on securities available for sale which are also recognized as a separate component of equity.

Financial Instruments: In the ordinary course of business, the Company has entered into off-balance sheet financial instruments consisting of commitments to extend credit, commercial letters of credit, and standby letters of credit as described in Note 12. Such financial instruments are recorded in the financial statements when they are funded or related fees are incurred or received.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Earnings (Loss) per Share ("EPS"): Basic EPS is computed by dividing income or loss available to common shareholders by the weighted-average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if options or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity. The factors used in the earnings per share computation follow:

| | <u>2014</u> | <u>2013</u> |
|--|---------------------|---------------------|
| Basic EPS: | | |
| Net income | \$ 368,871 | \$ 229,168 |
| Less preferred stock dividends and accretion of discount | <u>(512,814)</u> | <u>(331,276)</u> |
| Net loss available to common shareholders | <u>\$ (143,943)</u> | <u>\$ (102,108)</u> |
| Weighted average shares outstanding | <u>2,521,488</u> | <u>2,468,509</u> |
| Basic EPS | <u>\$ (0.06)</u> | <u>\$ (0.04)</u> |
| Diluted EPS: | | |
| Net loss available to common shareholders | <u>\$ (143,943)</u> | <u>\$ (102,108)</u> |
| Weighted average shares outstanding | 2,521,488 | 2,468,509 |
| Dilutive effects of stock options | <u>—</u> | <u>—</u> |
| Average shares and dilutive potential common shares | <u>2,521,488</u> | <u>2,468,509</u> |
| Diluted EPS | <u>\$ (0.06)</u> | <u>\$ (0.04)</u> |

All outstanding stock options were considered antidilutive as of December 31, 2014 and 2013.

Stock-Based Compensation: Compensation cost is recognized for stock options issued to employees based on the fair value of these awards at the date of grant. A Black-Scholes model is utilized to estimate the fair value of stock options. Compensation cost is recognized over the required service period, generally defined as the vesting period. See Note 10 for additional information on the Company's stock option plan.

Fair Value of Financial Instruments: Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in a separate note. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect these estimates.

Loss Contingencies: Loss contingencies, including claims and legal actions arising in the ordinary course of business, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. Management does not believe there are any such matters that will have a material effect on the financial statements.

Reclassifications: Some items in the prior year consolidated financial statements have been reclassified to conform with the current presentation. Reclassifications had no effect on prior year net income or shareholders' equity.

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Adoption of New Accounting Standards: In December 2013, the FASB amended the Glossary of the Codification to include a single definition of a public business entity for future use in U.S. GAAP. The definition of a public business entity will be used in considering the scope of new financial guidance and will identify whether the guidance does or does not apply to public business entities. The amendment does not affect existing requirements and there is no effective date. The adoption of this standard did not have a material impact on the Company's operating results or financial condition.

In January 2014, the FASB amended existing guidance to clarify when a creditor should be considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan such that the loan should be derecognized and the real estate recognized. These amendments clarify that an in substance repossession or foreclosure occurs, and a creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan, upon either: (1) the creditor obtaining legal title to the residential real estate property upon completion of a foreclosure, or (2) the borrower conveying all interest in the residential real estate property to the creditor to satisfy that loan through completion of a deed in lieu of foreclosure or through a similar legal agreement. Additional disclosures are required. These amendments are effective for public business entities for annual periods and interim periods within those annual periods beginning after December 15, 2014. Amendments in this standard can be applied using a modified retrospective or prospective transition method. Early adoption is permitted. The adoption of this standard is not expected to have a material effect on the Company's operating results or financial condition.

NOTE 2 - SECURITIES

The carrying amount of securities and their approximate fair values at December 31 were as follows:

| | Amortized <u>Cost</u> | Gross Unrealized <u>Gains</u> | Gross Unrealized <u>(Losses)</u> | Fair <u>Value</u> |

| | <u>\$ 1,767,085</u> | <u>\$ 1,833</u> | <u>\$ (1,823)</u> | <u>\$ 1,767,095</u> |

During 2014, the Company received proceeds of \$8,789,636 from the sale of available for sale investment securities resulting in gross gains of \$125,424 and gross losses of \$12,779. During 2013, the Company received proceeds of \$19,497,527 from the sale of available for sale investment securities resulting in gross gains of \$401,164 and no gross losses.

Investment securities with a fair value of approximately \$40.8 million and \$24.7 million at December 31, 2014 and 2013, respectively, were pledged to secure public deposits and the borrowings discussed in Note 7.

The scheduled maturities of investment securities at December 31, 2014 are shown below. Securities not due at a single maturity date are shown separately.

| | <u>Available for sale</u> | | <u>Held to maturity</u> | |

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 2 – SECURITIES (Continued)

| 2013 | Less than 12 Months | | Over 12 Months | | Total | |
|---|-----------------------|----------------------|---------------------|---------------------|-----------------------|----------------------|
| | Unrealized Loss | Fair Value | Unrealized Loss | Fair Value | Unrealized Loss | Fair Value |
| Mortgage-backed securities: residential | \$ (1,791,618) | \$ 30,166,599 | \$ (131,219) | \$ 3,268,293 | \$ (1,922,837) | \$ 33,434,892 |
| | <u>\$ (1,791,618)</u> | <u>\$ 30,166,599</u> | <u>\$ (131,219)</u> | <u>\$ 3,268,293</u> | <u>\$ (1,922,837)</u> | <u>\$ 33,434,892</u> |

At December 31, 2014, the Company had 25 investment securities where the total fair value had declined from the Company's total amortized cost. Because the decline in market value is attributable to changes in interest rates, not credit quality, and it is not more likely than not that the Company will be required to sell the securities, the Company does not consider these investments to be other-than-temporarily impaired at December 31, 2014.

NOTE 3 – LOANS

The Company's loan portfolio consists primarily of loans to borrowers within Southern California. Although the Company seeks to avoid concentrations of loans to a single industry or based upon a single class of collateral, real estate and real estate associated businesses are among the principal industries in the Company's market area and, as a result, the Company's loan and collateral portfolios are, to some degree, concentrated in those industries.

The recorded investment in the loans excludes accrued interest, net deferred loan fees and costs, and net discounts due to immateriality.

The following table presents the activity in the allowance for loan losses for the years ended December 31, 2014 and 2013, and the recorded investment in loans and impairment method, by portfolio segment:

| | Real Estate | Commercial | Consumer | Total |
|---|----------------------|----------------------|-------------------|----------------------|
| <u>2014</u> | | | | |
| Allowance for loan losses: | | | | |
| Beginning balance | \$ 1,171,775 | \$ 1,675,529 | \$ 101,712 | \$ 2,949,016 |
| (Recovery of) provision for loan losses | 125,794 | (494,533) | (36,116) | (404,855) |
| Charge-offs | (146,729) | (106,797) | (36,049) | (289,575) |

The Company has allocated \$0 and \$178,783 of specific reserves to loans with a recorded investment of \$486,929 and \$921,159 whose terms have been modified in troubled debt restructuring as of December 31, 2014 and 2013, respectively. The Company has not committed to lend any additional amounts to customers with outstanding loans that are classified as troubled debt restructurings as of December 31, 2014 and 2013.

There were no loans that were modified as troubled debt restructurings that occurred during the years ending December 31, 2014 and 2013. There were no troubled debt restructurings for which there was a payment default within twelve months following the modification during the years ended December 31, 2014 or 2013.

In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt for the foreseeable future without the modification. This evaluation is performed under the Company's internal underwriting policy.

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as current financial information, historical payment experience, collateral adequacy, credit documentation, and current economic trends, among other factors. The Company analyzes loans individually by classifying the loans as to credit risk. This analysis typically includes larger, non-homogeneous loans such as commercial real estate and commercial and industrial loans. This analysis is performed on an ongoing basis as new information is obtained. The Company uses the following definitions for risk ratings:

Pass - Loans classified as pass include loans not meeting the risk ratings defined below.

Special Mention - Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

(Continued)

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 3 – LOANS (Continued)

Substandard - Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Impaired - A loan is considered impaired, when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. Additionally, all loans classified as troubled debt restructurings are considered impaired.

The risk category of loans by class of loans was as follows as of December 31:

| | <u>Pass</u> | <u>Special Mention</u> | <u>Substandard</u> | <u>Impaired</u> | <u>Total</u> |
|--------------------------------------|----------------------|----------------------------|--------------------|---------------------|----------------------|
| <u>2014</u> | | | | | |
| Real estate loans: | | | | | |
| Construction and land development | \$ 4,785,915 | \$ - | \$ - | \$ - | \$ 4,785,915 |
| Commercial real estate | 29,464,887 | - | 272,769 | 10,027 | 29,747,683 |
| Residential real estate | 14,860,615 | - | - | 579,308 | 15,439,923 |
| Commercial loans: | | | | | |
| Small business administration | 1,768,413 | - | 299,789 | 13,775 | 2,081,977 |
| Commercial and Industrial | 10,262,759 | - | 10,523 | 71,783 | 10,345,065 |

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 4 – PREMISES AND EQUIPMENT

A summary of premises and equipment as of December 31 follows:

| | <u>2014</u> | <u>2013</u> |
|---|--------------------|--------------------|
| Furniture, fixtures, and equipment | \$ 1,392,731 | \$ 1,759,642 |
| Leasehold improvements | <u>861,015</u> | <u>852,919</u> |
| | 2,253,746 | 2,612,561 |
| Accumulated depreciation and amortization | <u>(2,156,461)</u> | <u>(2,566,127)</u> |
| | <u>\$ 97,285</u> | <u>\$ 46,434</u> |

Depreciation expense was \$25,308 and \$121,043 for 2014 and 2013, respectively.

The Company leases its facilities under non-cancellable operating leases expiring at various dates through 2020. Future minimum annual payments for these leases are as follows:

| | |
|------------------------------|---------------------|
| 2015 | \$ 359,767 |
| 2016 | 345,238 |
| 2017 | 353,555 |
| 2018 | 306,182 |
| 2019 | 292,195 |
| Thereafter | <u>61,165</u> |
| Total minimum lease payments | <u>\$ 1,718,102</u> |

The minimum rental payments shown above are given for the existing lease obligations and include annual rent adjustments. Rental expense, including related common area maintenance charges, was \$363,126 and \$392,398 for 2014 and 2013, respectively.

NOTE 5 – DEPOSITS

Scheduled maturities of time deposits for the next five years were as follows:

| | |
|------|----------------------|
| 2015 | \$ 22,165,396 |
| 2016 | 6,825,712 |
| 2017 | 2,635,502 |
| 2018 | 991,000 |
| 2019 | <u>—</u> |
| | <u>\$ 32,617,610</u> |

The amount of time deposits that meet or exceed the FDIC insurance limit of \$250,000 at year end 2014 and 2013 were \$2,153,779 and \$3,502,331, respectively.

(Continued)

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 6 – SUBORDINATED DEBENTURES AND SUBORDINATED NOTES

On September 17, 2003, the Company issued \$3,093,000 of junior subordinated deferrable interest debentures (the “debentures”) to CalWest Statutory Trust I (the “Trust”). These debentures are subordinated to effectively all borrowings of the Company and are due and payable on September 17, 2033. Interest is payable quarterly on these debentures at three-month LIBOR plus 2.95% for an effective rate of 3.18% as of December 31, 2014. The Company has the option to defer interest payments on the subordinated debentures from time to time for a period not to exceed five years. The Company has elected to defer all interest payments due after the fourth quarter 2010 and approximately \$413,429 of due but unpaid interest is included in accrued interest and other liabilities as of December 31, 2014.

The Company also purchased a 3% common interest in the Trust. The balance of the equity of the Trust is comprised of mandatorily redeemable preferred securities. The Federal Reserve Board has issued final regulations confirming that these types of mandatorily redeemable preferred securities qualify as Tier I Capital (up to 25% of other components of Tier I Capital) and the remainder as Tier II Capital.

In 2010, the Company issued \$630,000 of mandatorily convertible subordinated notes to various individuals. These notes are subordinated to effectively all borrowings of the Company and mature three years after issuance, at which time the Company can convert the notes to shares of common stock. The Company may prepay all or a portion of the notes prior to the conversion date. Interest is payable semi-annually at a rate of 8%, but the Company can defer interest payments until maturity. No payments of interest have been made on these subordinated notes and \$197,738 of due but unpaid interest has been included in accrued interest and other liabilities at December 31, 2014.

In 2013, the Company extended the maturity dates of the subordinated notes until 2014 and offered a one-year deferral of the conversion date of the notes to common stock. Holders of \$605,000 of the subordinated notes accepted the deferral offer, and the holder of \$25,000 of the subordinated notes along with \$4,669 of related accrued interest payable were converted into common stock resulting in \$605,000 of subordinated notes outstanding as of December 31, 2013. In 2014, the Company extended the maturity dates of the subordinated notes and offered a one-year deferral of the conversion date of the notes to common stock. All remaining holders of the subordinated notes accepted the deferral option to 2015.

NOTE 7 – OTHER BORROWINGS

As a member of the Federal Home Loan Bank of San Francisco (“FHLBSF”), the Company may borrow against a line of credit with a maximum financing availability of 25% of its total assets, adjusted quarterly, subject to the pledge of eligible collateral as well as other terms and conditions. Based on the amount of pledged eligible collateral as of December 31, 2014, the Company had maximum financing availability of \$35,340,000 with remaining borrowing capacity of \$24,340,000. Securities with a fair value of approximately \$12,800,000 at December 31, 2014 have been pledged on this arrangement. Reflected in the remaining borrowing capacity is a letter of credit in the amount of \$11 million issued on behalf of Company customers.

The Company may also borrow from the discount window and other financing facilities available through the Federal Reserve Bank of San Francisco, subject to the pledge of eligible collateral. Securities with a fair value of approximately \$4.6 million were pledged on this arrangement as of December 31, 2014. No amounts were outstanding on this arrangement as of December 31, 2014 or 2013.

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 7 – OTHER BORROWINGS (Continued)

The Company may also borrow up to \$7.5 million overnight from its correspondent banks on a secured and unsecured basis. No amounts were outstanding as of December 31, 2014 or 2013 and securities with a fair value of approximately \$8.0 million were pledged on the secured arrangements as of December 31, 2014.

NOTE 8 – INCOME TAXES

Income tax expense for the years ended December 31 consists of the following:

| | <u>2014</u> | <u>2013</u> |
|-------------------------------|-----------------|-----------------|
| Current expense: | | |
| Federal | \$ – | \$ – |
| State | <u>1,600</u> | <u>1,600</u> |
| | 1,600 | 1,600 |
| Deferred expense: | | |
| Federal | 67,000 | (13,000) |
| State | <u>25,000</u> | <u>8,000</u> |
| | 92,000 | (5,000) |
| Change in valuation allowance | <u>(92,000)</u> | <u>5,000</u> |
| | <u>\$ 1,600</u> | <u>\$ 1,600</u> |

A comparison of the federal statutory income tax rate of 34% to the Company's effective income tax follows:

| | <u>2013</u> | <u>2012</u> |
|---|-----------------|-----------------|
| Federal statutory rate times financial statement income | \$ 126,000 | \$ 79,000 |
| Effect of: | | |
| California franchise taxes | 16,000 | 7,000 |
| Tax-free income | (62,000) | (98,000) |
| Stock-based compensation | 6,000 | 9,000 |
| Valuation allowance | (92,000) | 5,000 |
| Other items – net | <u>7,600</u> | <u>(400)</u> |
| Total tax expense | <u>\$ 1,600</u> | <u>\$ 1,600</u> |

(Continued)

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 8 – INCOME TAXES (Continued)

The following is a summary of the components of the net deferred tax asset accounts recognized in the accompanying consolidated balance sheets:

| | <u>2014</u> | <u>2013</u> |
|---|------------------|------------------|
| Deferred tax assets: | | |
| Allowance for loan losses due to tax limitations | \$ – | \$ 236,000 |
| Net operating loss carryforwards | 9,581,000 | 9,387,000 |
| Depreciation differences | 61,000 | 68,000 |
| Deferred compensation plans | 119,000 | 134,000 |
| Nonaccrual loan interest | 85,000 | 139,000 |
| Net unrealized losses on sale of available for sale securities | 107,000 | 575,000 |
| Other | <u>43,000</u> | <u>32,000</u> |
| | 9,996,000 | 10,571,000 |
| Valuation allowance | (9,745,000) | (10,305,000) |
| Deferred tax liabilities: | | |
| Allowance for loan losses due to tax limitations | (12,000) | – |
| Deferred loan costs | (195,000) | (222,000) |
| Other | <u>(44,000)</u> | <u>(44,000)</u> |
| | <u>(251,000)</u> | <u>(266,000)</u> |
| Net deferred tax asset/(liability) | <u>\$ –</u> | <u>\$ –</u> |

A valuation allowance for deferred tax assets is recorded when it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income and tax planning strategies which will create taxable income during the periods in which those temporary differences become deductible. Management evaluates the positive and negative evidence and determines the realizability of the deferred tax asset on a regular basis.

At December 31, 2014 and 2013, management reassessed the continuing need for this valuation allowance and determined that it was appropriate to maintain a full valuation allowance against the Company's deferred tax assets. Management will continue to evaluate the potential realizability of the deferred tax assets and will continue to maintain a valuation allowance to the extent it is determined that it is more likely than not that these assets will not be realized.

At December 31, 2014, the Company had federal and state net operating loss carry-forwards of approximately \$23.1 million and \$24.1 million. Net operating loss carry-forwards, to the extent not used will begin to expire in 2028 and 2027, respectively.

The Company is subject to U.S. federal income tax as well as income tax of the State of California. The Company is no longer subject to examination by federal taxing authorities for tax years prior to 2011 and for state taxing authorities for tax years prior to 2010.

There were no significant unrealized tax benefits recorded as of December 31, 2014 and 2013, and the Company does not expect any significant increase in unrealized tax benefits in the next twelve months. Additionally, the Company has determined that no amounts were required to be recorded related to interest and penalties for the years ended December 31, 2014 and 2013.

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 9 – OTHER EXPENSES

Other expenses for the year ended December 31 are comprised of the following:

| | <u>2014</u> | <u>2013</u> |
|----------------------------------|---------------------|---------------------|
| Marketing and business promotion | \$ 88,352 | \$ 87,201 |
| Professional and consulting | 487,957 | 456,860 |
| Office expenses | 160,944 | 149,712 |
| Data processing | 301,703 | 328,322 |
| Loan expense | 107,949 | 127,150 |
| Regulatory assessments | 440,241 | 436,247 |
| Other expenses | <u>431,462</u> | <u>453,153</u> |
| | <u>\$ 2,018,608</u> | <u>\$ 2,038,645</u> |

NOTE 10 – STOCK-BASED COMPENSATION

The shareholders approved the Company's 1999 Stock Option Plan in October 1999, under which 200,037 shares of the Company's common stock may be issued. In July 2003, the shareholders approved the 2003 Stock Option Plan under which 192,995 shares of the Company's common stock may be issued, raising the total shares available to 393,032. Under the terms of the Company's stock option plans, employees may be granted nonqualified stock options or incentive stock options and directors may be granted nonqualified stock options.

In May 2006, the shareholders approved the Company's 2006 Equity Based Compensation Plan under which 201,651 shares of the Company's common stock may be issued. The Company amended the Plan in 2011 and increased the number of shares available to be issued under the 2006 Plan to 1,110,651. The 2006 Plan authorizes the granting of incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock awards and restricted stock units. Under the Plan vesting restrictions on awards may be time based and/or performance based. Participation in the 2006 Plan is open to all employees of the Company as well as the Company's directors. Under the terms of the 2006 Plan employees may be granted nonqualified stock options or incentive stock options and directors may be granted nonqualified stock options. Generally, all awards expire no later than ten years from the date of the grant.

The fair value of each option award is estimated on the date of grant using a closed form option valuation (Black-Scholes) model that uses the assumptions noted in the table below. Expected volatilities are based on historical volatilities of the Company's common stock. The Company uses historical data to estimate option exercise and post-vesting termination behavior. The expected term of options granted is based on historical data and represents the period of time that options granted are expected to be outstanding, which takes into account that the options are not transferable. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of the grant.

The weighted average fair value of options granted during 2014 was \$0.80.

(Continued)

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 10 – STOCK-BASED COMPENSATION (Continued)

A summary of the status of the Company's stock option plan as of December 31, 2014, and changes during the year are presented below:

| | <u>Shares</u> | <u>Weighted- Average Exercise Price</u> | <u>Weighted- Average Remaining Contractual Term</u> | <u>Aggregate Intrinsic Value</u> |
|----------------------------------|---------------|---|---|--|
| Outstanding at beginning of year | 81,856 | \$ 7.63 | | |
| Granted | 40,000 | 1.00 | | |
| Forfeited and expired | (34,606) | 9.72 | | |
| Exercised | <u>—</u> | <u>—</u> | | |
| Outstanding at end of year | <u>87,250</u> | <u>\$ 3.76</u> | <u>6.13</u> | <u>—</u> |
| Vested and expected to vest | <u>87,250</u> | <u>\$ 3.76</u> | <u>6.13</u> | <u>—</u> |
| Options exercisable at year-end | <u>47,250</u> | <u>\$ 6.10</u> | <u>3.55</u> | <u>—</u> |

The fair value of options granted during 2014 was determined using the following weighted average assumptions as of the grant date:

| | |
|---------------------------------|------------|
| Risk-free interest rate | 2.16% |
| Expected term | 7.50 years |
| Expected stock price volatility | 89.55% |
| Dividend yield | 0.00% |

As of December 31, 2014 there was approximately \$28,000 of unrecognized compensation cost related to non-vested options granted under the 2006 Plan. This cost is expected to be recognized over a weighted average period of 3.0 years.

NOTE 11 – RELATED PARTY TRANSACTIONS

In the ordinary course of business, the Company has granted loans to certain directors and the companies with which they are associated. The balance of these loans outstanding at December 31, 2014 and 2013 was approximately \$532,000 and \$564,000, respectively.

NOTE 12 – COMMITMENTS

In the ordinary course of business, the Company enters into financial commitments to meet the financing needs of its customers. These financial commitments include commitments to extend credit and standby letters of credit. Those instruments involve to varying degrees, elements of credit and interest rate risk not recognized in the Company's financial statements. The Company's exposure to loan loss in the event of nonperformance on commitments to extend credit and standby letters of credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments as it does for loans reflected in the financial statements.

(Continued)

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 12 – COMMITMENTS (Continued)

As of December 31, 2014 and 2013, the Company had the following outstanding financial commitments whose contractual amount represents credit risk:

| | <u>2014</u> | <u>2013</u> |
|------------------------------|---------------------|---------------------|
| Commitments to extend credit | <u>\$12,823,000</u> | <u>\$15,396,000</u> |

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Since many of the commitments are expected to expire without being drawn upon, the total amounts do not necessarily represent future cash requirements. The Company evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained if deemed necessary by the Company is based on management's credit evaluation of the customer. The majority of the Company's commitments to extend credit and standby letters of credit are secured by real estate.

The Company is, from time to time, involved in various matters of litigation which have arisen in the ordinary course of its business. In the opinion of management, the disposition of such pending litigation will not have a material effect on the Company's financial statements.

NOTE 13 – EMPLOYEE BENEFITS

The Company has entered into salary continuation agreements with certain executive officers. Under these agreements, the Company is obligated to provide, upon retirement, a 15 year benefit to the officers. The estimated present value of future benefits to be paid is being accrued over the period from the effective date of the agreements until the expected retirement dates of the participants. On May 5, 2010, certain officers entered into agreements that effectively converted the then existing liability under the salary continuation agreements of \$314,205 to shares of common stock of the Company.

The Company has also entered into split-dollar life insurance agreements with certain executive officers. The present value of the post-retirement cost of maintaining the life insurance policy is being accrued over the period from the effective date of the agreements until the expected retirement dates of the participants. The income (expense) for these agreements, net of forfeitures totaled approximately (\$2,870) and \$5,123 for 2014 and 2013, respectively. Total accrued liability for these agreements as of December 31, 2014 and 2013, was \$27,946 and \$25,076, respectively.

The Company is a beneficiary of life insurance policies that have been purchased as a method of financing the benefits under these agreements. Income earned on the cash surrender value of these policies is tax-free to the Company and is utilized to reduce the overall costs of benefits provided to key officers.

(Continued)

NOTE 14 – REGULATORY MATTERS

Consent Order: On January 24, 2011 the Bank consented to the issuance of a Consent Order ("the Order") by the Office of the Comptroller of the Currency ("OCC"). The Order places significant requirements on the Bank, including:

- The Bank must maintain Tier 1 Capital to total assets ratio of at least 9% and Total Capital to risk-weighted assets of at least 12% throughout the life of the Order.
- No dividends may be paid without the prior written consent of the OCC.
- The Bank must submit a written strategic plan to improve profits and maintain sufficient capital.
- The Board of Directors shall adopt policies and procedures to ensure that the Bank has effective senior management in place.
- The Bank must adopt and implement policies and procedures to strengthen management of overall risk exposures in certain areas, including loan portfolio management, criticized assets, nonaccrual loans and troubled debt restructurings, concentrations of credit, allowance for loan losses, loan review and liquidity risk management.

Effective with the date of the Order, the Bank was considered adequately capitalized under the FDIC's prompt corrective action rules. The Bank continues to be considered adequately capitalized under these rules as of December 31, 2014. The Bank cannot be considered well capitalized while it is under the Order, even if it is in compliance with the minimum capital requirements of the Order. As a result of being deemed adequately capitalized, the Bank was not able to accept, renew, or rollover any brokered deposit unless it has been granted a waiver of such prohibition by the FDIC and may not accept high rate deposits as defined by regulation. There were no remaining brokered deposits as of December 31, 2014.

The Bank expects to work closely with the OCC to address the provisions of the Order. Regular updates have been submitted to report progress made in correcting the items addressed in the Order. The Order will remain in effect until terminated by the OCC. Failure to comply with terms of the Order may result in additional enforcement action against the Bank. See additional discussion in regards to management's plans to comply with the Order in Note 18.

Capital Requirements: The Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. Their capital amounts and classifications are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors. Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier 1 capital (as defined) to average assets (as defined).

CALWEST BANCORP AND SUBSIDIARY

NOTE 14 – REGULATORY MATTERS (Continued)

The following table sets forth the Bank's actual and required capital amounts and ratios (dollar amounts in thousands):

| | <u>Actual</u> | | <u>Required For Capital Adequacy Purposes</u> | | <u>To Be Adequately Capitalized Under the Consent Order</u> | |
|--|---------------|--------------|---|--------------|---|--------------|
| | <u>Amount</u> | <u>Ratio</u> | <u>Amount</u> | <u>Ratio</u> | <u>Amount</u> | <u>Ratio</u> |
| <u>December 31, 2014</u> | | | | | | |
| Total capital (to risk-weighted assets) | \$ 9,476 | 13.05% | \$ 5,810 | 8.00% | \$ 8,715 | 12.00% |
| Tier 1 capital (to risk-weighted assets) | 8,546 | 11.77% | 2,905 | 4.00% | N/A | N/A |
| Tier 1 capital (to average assets) | 8,546 | 6.18% | 5,534 | 4.00% | 12,452 | 9.00% |
| <u>December 31, 2013</u> | | | | | | |
| Total capital (to risk-weighted assets) | \$ 8,947 | 12.44% | \$ 5,799 | 8.00% | \$ 8,699 | 12.00% |
| Tier 1 capital (to risk-weighted assets) | 8,022 | 11.07% | 2,900 | 4.00% | N/A | N/A |
| Tier 1 capital (to average assets) | 8,022 | 5.53% | 5,802 | 4.00% | 13,054 | 9.00% |

NOTE 15 – FAIR VALUE

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The fair values of securities are determined by obtaining quoted market prices on nationally recognized securities exchanges (Level 1) or matrix pricing, which is a mathematical technique used to value debt securities without relying exclusively on quoted prices for specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2).

There were no assets or liabilities carried at fair value on a nonrecurring basis as of December 31, 2014 or 2013.

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 15 – FAIR VALUE (Continued)

The following table provides the hierarchy and fair value for each major category of assets and liabilities measured at fair value at December 31:

| | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> | <u>Total</u> |
|---|----------------|----------------|----------------|---------------|
| <u>2014</u> | | | | |
| Assets measured at fair value on a recurring basis: | | | | |
| Securities available for sale | \$ – | \$ 40,816,042 | \$ – | \$ 40,816,042 |
| <u>2013</u> | | | | |
| Assets measured at fair value on a recurring basis: | | | | |
| Securities available for sale | \$ – | \$ 49,845,439 | \$ – | \$ 49,845,439 |

Fair Values of Financial Instruments: The fair value of a financial instrument is the amount at which the asset or obligation could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Fair value estimates are made at a specific point in time based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the entire holdings of a particular financial instrument.

Because no market value exists for a significant portion of the financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature, involve uncertainties and matters of judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Fair value estimates are based on financial instruments both on and off the balance sheet without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Additionally, tax consequences related to the realization of the unrealized gains and losses can have a potential effect on fair value estimates and have not been considered in many of the estimates.

CALWEST BANCORP AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 15 – FAIR VALUE (Continued)

The methods and assumptions, not previously presented, used to estimate fair values are described as follows:

Cash and Due from Banks, Federal Funds Sold and Interest Bearing Balances, and Interest-Bearing Deposits in Other Banks - The carrying amounts of cash and short-term instruments approximate fair values and are classified as Level 1.

Net Loans - Fair values of loans are estimated as follows: for variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values resulting in a Level 3 classification. Fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality resulting in a Level 3 classification. Impaired loans are valued at the lower of cost or fair value as described previously. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price.

FRB and FHLB Stock - It is not practical to determine the fair value of restricted stock due to restrictions placed on its transferability.

Deposits - The fair values disclosed for demand deposits (e.g., interest and non-interest checking, savings, and certain types of money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amount) resulting in a Level 2 classification. The carrying amounts of variable rate, fixed-term money market accounts and certificates of deposit approximate their fair values at the reporting date resulting in a Level 2 classification. Fair values for fixed rate certificates of deposit are estimated using a discounted cash flows calculation that applies interest rates currently being offered on certificates with similar maturities resulting in a Level 2 classification.

Subordinated Debentures and Notes - The fair values of the Company's subordinated debentures and notes are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 2 classification.

Accrued Interest Receivable/Payable - The carrying amounts of accrued interest approximate fair value and are classified within the same fair value level as the related asset or liability.

Off-balance Sheet Instruments - Fair values for off-balance sheet, credit-related financial instruments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing. The fair value of commitments is not material.

NOTE 16 – SENIOR PREFERRED STOCK

On January 23, 2009, the Company entered into a Purchase Agreement with the United States Department of the Treasury (the "Treasury"), pursuant to which the Company issued and sold 4,656 shares of the Company's Preferred Stock as Fixed Rate Cumulative Perpetual Preferred Stock, Series A (the "Series A Preferred Stock") and 233 shares of Fixed Rate Cumulative Perpetual Warrant Preferred Stock, Series B (the "Series B Preferred Stock") for an aggregate purchase price of \$4,656,000 in cash. The redemption value of both Series A and Series B Preferred Stock is \$4,888,800. The discount of \$233,000 plus issuance costs of \$25,000 is accreted against retained earnings over the estimated five-year life of the Preferred Stock reducing the reported income available for common shareholders.

(Continued)

NOTE 16 – SENIOR PREFERRED STOCK (Continued)

The Series A Preferred Stock qualifies as Tier 1 capital and pays cumulative dividends at a rate of 5% per annum for the first five years and 9% per annum thereafter. The preferred stock began to accrue dividends at the higher 9% rate beginning in January of 2014. The Series A Preferred Stock may be redeemed by the Company after three years if certain other conditions are met. The Series B Preferred Stock also qualifies as Tier 1 capital and pays cumulative dividends at a rate of 9% per annum. The Series B Preferred Stock may only be redeemed after all of the Series A Preferred Stock has been redeemed. If dividends on the Preferred Stock are not paid in full for six quarterly dividend periods, whether or not consecutive, the Treasury will have the right to elect two directors. The right to elect directors will end when dividends have been paid for all prior dividend periods. For as long as any Preferred Stock is outstanding and held by the Treasury, no dividends may be declared on common shares unless approved by the Treasury.

The Company has not paid dividends on the preferred stock since the August 15, 2010 payment. The Company does not accrue a liability for dividends until they are declared and therefore compound dividends in arrears of \$1,421,505 have not been reflected as a reduction of shareholders' equity as of December 31, 2014.

In the Purchase Agreement, the Company agreed that, until such time as the Treasury ceases to own any debt or equity securities of the Company acquired pursuant to the Purchase Agreement, the Company will take all necessary action to ensure that its benefit plans with respect to its senior executive officers comply with Section 111(b) of the Emergency Economic Stabilization Act of 2008 (the "EESA"), as amended by the American Recovery and Reinvestment Act of 2009, and as implemented by any guidance or regulation under the EESA that has been issued and is in effect, from time to time, and has agreed to not adopt any benefit plans with respect to, or which covers, its senior executive officers that do not comply with the EESA, and the applicable executives have consented to the foregoing.

NOTE 17 – LOANS ACQUIRED IN EXCHANGE OF ASSETS

In 2010, the Company executed agreements to sell a classified loan and a piece of property held in other real estate owned with a carrying value of \$1,639,932 for \$1,900,261 and also provide cash of \$5,700,784 in exchange for a pool of home equity lines of credit ("HELOC's") with a par value of \$7,601,045.

Accounting standards require that assets received in full satisfaction of receivables be recorded at their purchase date fair value. A discount of \$1,333,994 was recorded to reduce the par value of the HELOC's to reflect a fair value of \$6,332,451. The discount was recorded, net of the excess sales price over carrying value of \$260,329, and resulted in the recognition of a loss on the sale of the other real estate of \$886,684, a charge-off on the loan of \$62,690 and a charge to miscellaneous expense of \$124,291. The discount is being recognized as interest income over the life of the HELOC's with \$120,000 and \$149,000 recognized into income in 2014 and 2013, respectively. The remaining balance of the discount is \$604,315 as of December 31, 2014.

NOTE 18 – MANAGEMENT’S PLANS

As discussed in Note 14, the Bank is currently operating under a Consent Order that requires, among other things, the submission of a strategic plan and a capital plan to the OCC for non-objection as well as minimum total risk-based and Tier 1 leverage capital ratios that are higher than what is normally required to be considered well capitalized. As of December 31, 2014, the Bank’s strategic and capital plans have not yet been accepted by the OCC and the Bank’s Tier 1 leverage ratio is below the amount required by the Consent Order. The Bank is out of compliance with certain other requirements of the Consent Order as well.

In response to the noncompliance with the Order, the Company has taken steps to increase the Bank’s Tier 1 leverage ratio by reducing the level of nonaccrual and impaired loans and implementing cost-cutting measures in order to increase earnings. Management also is continuing to develop their strategic and capital plans, a significant portion of which includes raising additional capital through various channels.

The Company believes that the successful completion of all or a significant portion of its plans, which include but are not limited to those actions described above, will help the Bank to meet the requirements of the Order, but there can be no assurance that the successful completion of its plans will enable the Bank to meet the requirements of the current or future regulatory enforcement actions imposed by its primary regulatory agency.
